PROFESSIONAL SUMMARY

Results-driven Front-end Developer and Quality Assurance Engineer with hands-on experience testing and building scalable web and mobile applications. Skilled in manual and automated testing, UI development with modern frameworks, and collaborative problem solving. Proven ability to improve product quality, optimize performance, and deliver user centric digital solutions.

WORK EXPERIENCE

AUDIOEYE.Inc, Accessibility Integration Engineer

12/2025 – Present | Remote

- Audited and remediated 50+ accessibility issues across web applications, implementing semantic HTML, ARIA roles, and keyboard navigation fixes to achieve WCAG 2.1 AA compliance across core user flows
- Conducted manual accessibility testing using assistive technologies including NVDA and JAWS, validating screen reader compatibility and usability for users with disabilities across desktop and mobile platforms
- Contributed to the team's design system by establishing accessible component patterns, color contrast guidelines, and focus management standards, reducing accessibility defects in new feature development
- Collaborated with designers and developers to integrate accessibility requirements early in the product lifecycle, translating WCAG success criteria into actionable tickets and preventing non-compliant features from reaching production

HASOB INTEGRATED SERVICES, Quality Assurance Engineer

01/2025 – 11/2025 | Abuja, Nigeria

- Collaborated with developers and product teams to clarify requirements, reproduce issues, and verify fixes efficiently.
- Conducted manual and automated testing across 15+ web and mobile applications, ensuring high-quality releases and improved user experience.
- Identified, documented, and tracked software defects using standardized QA processes, collaborating closely with developers to resolve issues efficiently.
- Designed and executed detailed test cases and test scripts to validate functionality, performance, and usability across diverse platforms.
- Documented test cases, bug reports, and functional observations to support sprint planning and user acceptance testing.

NATIONAL HUMAN RIGHTS COMMISSION,

02/2024 – 06/2024 | Abuja, Nigeria

Front-end Developer Intern

- Developed and maintained responsive web interfaces using React.js, enhancing user accessibility and engagement for human rights data portals and case management systems.
- Collaborated with cross-functional teams to translate complex human rights data into intuitive UI components and interactive dashboards, improving data visibility and public transparency.
- Optimized website performance, achieving 40% faster load times, and implemented WCAG accessibility best practices, improving compliance and usability for 1000+ daily users.

EDUCATION

VERITAS UNIVERSITY ABUJA, NIGERIA,
Bachelor of Science Computer Science

2020 – 2024 | NIGERIA

KEY SKILLS

Front-End — React, HTML, Tailwind CSS, CSS, SASS, JavaScript, TypeScript, Redux, Tan Stack/React Query

Testing — Selenium Webdriver, Katalon Studio, Postman, Manual Testing, Automated Testing, Test Case Design

PROFESSIONAL DEVELOPMENT

- Completed hands-on training in modern React.js development, including Hooks, Context API, and component architecture.
- Strengthened understanding of front-end performance optimization, including code splitting, lazy loading, caching strategies, and improving Core Web Vitals.
- Pursued continuous learning through documentation, online courses, and community projects to stay updated with evolving frontend technologies.
- Enhanced knowledge of UI/UX best practices, responsive design, accessibility (WCAG), and mobile-first development.
